POLICY STATEMENT

We aim to provide safe and effective care for children diagnosed with Diabetes by ensuring the staff are fully aware of the individual needs of each child. All staff will be appropriately trained in emergency first aid to ensure they are able to adequately administer medication and respond appropriately in a diabetes emergency.

RELATED POLICIES

- Epping Heights OSHC Policy D-2: Hygiene
- Epping Heights OSHC Policy D-3: Food and Nutrition
- Epping Heights OSHC Policy D-10: First Aid
- Epping Heights OSHC Policy D-20: Medication

PROCEDURE

Parents will be required to inform the Centre of any child diagnosed by a medical practitioner as having Diabetes at the time of enrolment. This information is recorded on the enrolment form. Parents are reminded of this requirement through the Family Handbook and the Information Brochure.

The Centre Coordinator will organise a meeting with the parents/guardians of the child to discuss the details of managing the child's condition during their time at the Centre.

Parents will be required to provide a copy of a diabetic emergency plan, as authorised by the medical practitioner (Regulation 90). Permission will be required from parents to have the diabetic emergency plan displayed in a location visible to staff responsible for the child.

The following will need to be obtained from the parents before the child is able to attend the service:

Blood Glucose Test authorisation

Blood glucose testing kit, labelled clearly with the child's name

Diabetic emergency plan, as authorised by medical practitioner

If the child requires any additional considerations with regards to toileting, meal times, food restrictions, physical activity etc., the parent/guardian must advise the Centre Coordinator upon enrolment or as soon as relevant. It is the duty of the Centre Coordinator to ensure this information is made available to the staff responsible for the child.

Alternatives will be provided for any child diagnosed with diabetes at meal times, where possible and/or appropriate.

Any medication or relevant medical equipment required must be supplied by the parents in a hard plastic box, clearly marked with the child's name and any additional relevant information must be kept with the medication at all times.

All medication must be stored in an area easily accessible to staff (not locked away) but inaccessible to children and away from any direct heat source.

All blood glucose testing and emergency response in regards to a diabetic child, must be managed only by the staff member on duty trained in First Aid. Where the child is able and confident to test their Blood Glucose Levels independently, a quiet area will be provided for

them to do so. The child will be expected to advise the staff member that they have completed their test to keep them informed of their current levels.

All staff including relief staff and volunteers, will be informed of the current enrolled children who have been diagnosed as diabetic upon employment. It is the responsibility of all staff to familiarise themselves with any children diagnosed.

All staff are required to notify the Centre Coordinator if they have been diagnosed as being diabetic by a medical practitioner. This will be recorded in their emergency details form and any additional information recorded on file.

All staff are informed of the current enrolments who have been diagnosed as diabetic, on an ongoing basis.

In the event of a diabetic emergency occurring, staff will follow the instructions on the child's diabetes emergency plan.

All relief staff will be informed of any children diagnosed with diabetes on initial employment.

Parents/guardians of child who has been diagnosed as diabetic must be provided with a copy of the 'Diabetes' policy (Regulations 91).

If relevant, policies and practices in relation to specific needs of individual children will be developed and implemented.
