My Time, Our Place

LO. 1	Children feel safe, secure, and supported
	Children learn to interact in relation to others with care, empathy and respect
LO. 3	Children become strong in their social and emotional wellbeing

Policy Statement

We will work closely with children, families and, where relevant, schools and other health professionals to manage medical conditions of children attending the Centre. We will support children with medical conditions to participate fully in the day-to-day program at the Centre in order to promote their sense of wellbeing, connectedness and belonging at the Centre. Our educators will be fully aware of the nature and management of any child's medical condition and will respect the child and the family's confidentiality.

Procedure

Parents will be required to inform the service of any medical conditions the child may have at the time of enrolment. This information will be recorded by the parent/guardian through the enrolment process. Parents are to notify the centre if new medical conditions arise after enrolment.

Upon notification of a child's medical condition the service will provide the parent with a copy of this policy in accordance with regulation 91.

Doctor diagnosed medical conditions will require the completion of a Medical management plan with the child's doctor and parent. This will need to be provided to the centre on enrolment.

All children with Asthma must complete the Australian Government's "My Asthma Action Plan", which can be found on the centres website. This must be signed by a medical practitioner. The child/ren's enrolment may not be authorised until this has been provided.

All children with allergies or anaphylaxis, must have completed an ASCIA Management Plan and must be signed by a medical practitioner. The child/ren's enrolment may not be authorised until this has been provided.

It is a requirement of the Centre to meet its regulatory obligations that a risk minimisation plan and a communication plan (RMCP) be developed in consultation with the parents. The Nominated Supervisor will consult with the parents and/or relevant health professionals as soon

as possible after enrolment to determine content of that plan to assist in a smooth and safe transition of the child into the Centre. The content of planning will include:

- Identification of any risks to the child or others by their attendance at the Centre
- Identification of any practices or procedures that need adjustment at the Centre to minimise risk
- Processes and timeline for orientation procedures for educators
- Methods for communicating between parents and educators any changes to the child's medical management plan

The medical management plan will be followed in the event of any incident relating to the child's specific health care need, allergy or relevant medical condition (in accordance with regulation 90). All educators will be informed of any special medical conditions affecting children and orientated to their management (see Staff Orientation Policy). All Educators are to read the Risk Minimisation and Communication Plan (RMCP) and then sign and date the plan.

All medical conditions, including food allergies will be placed on the fridge door and on the First Aid cupboard. It is deemed the responsibility of every educator to read and refer to the list at the commencement of every shift.

All relief educators will be informed of the list on initial employment and provided orientation on what action to take in the event of a medical emergency involving the child (see Relief Staff Policy).

Where a child has a life threatening food allergy, the Centre will endeavour to refrain from supplying the particular food allergen in the Centre and families in the Centre will be advised to avoid supplying that allergen. Parents of children with an allergy may be asked to supply a particular diet if required (e.g., soy milk) (see Allergies Policy). The Co-ordinator will communicate with the families of children with severe allergies to source alternate food products that are allergen free that the children enjoy eating.
