## My Time, Our Place

LO. 1	Children feel safe, secure, and supported
LO. 3	Children take increasing responsibility for their own health and physical wellbeing
LO. 5	Children are effective communicators

## Policy Statement

We are committed to ensuring that monthly inspections are conducted at this Service to identify hazards and control those risks or eliminate hazards. All areas are regularly inspected.

This procedure covers all workplace inspections conducted by staff or Management.

## **Related Policies**

- EPPING HEIGHTS OSHC Policy A-4: Enrolment
- EPPING HEIGHTS OSHC Policy A-13: Participation and Access
- EPPING HEIGHTS OSHC Policy A-17: Privacy and Confidentiality
- EPPING HEIGHTS OSHC Policy A-19: Nominated Supervisor
- EPPING HEIGHTS OSHC Policy C-3: Staff Orientation and Induction
- EPPING HEIGHTS OSHC Policy C-9: Relief Staff
- EPPING HEIGHTS OSHC Policy C-10: Volunteers/Students/Visitors
- EPPING HEIGHTS OSHC Policy C-15: Return to work Program
- EPPING HEIGHTS OSHC Policy D-22: Child Protection – Mandatory Reporting

## **Responsibilities**

Management have the responsibility to:

- Either complete the inspection themselves or delegate to a suitable competent individual
- Ensure the individual appointed have the skills, knowledge, and competency to undertake the inspection in order to recognise any hazards that may need attention

Staff have the responsibility to:

- Maintain the premises in a clean and tidy manner
- Ensure equipment / toys are stored safely
- Mop up any spills and remove trip hazards without instruction
- Ensure rubbish is kept in designated areas

## **Procedure**

- The "Workplace Inspection Checklist" will be used to identify hazards in the Centre. This checklist will be regularly reviewed to ensure it addresses all areas of the service, and matches GELSafe and legislative requirements.
- The checklist will be completed electronically or in hard copy. Additional hazards specific to the Centre can be noted at the end of the relevant section

Areas to be inspected will include:

- Internal areas: All areas of the Centre including but not limited to the play area, kitchen, amenities, storerooms, etc.
- External areas: All areas around the Centre including play areas, storage areas, carparks etc.

On completion of the inspection any urgent hazards must be brought to management's attention immediately for rectification and a risk assessment documented.

Examples of hazards that should be addressed during the inspection include:

- Spillage on floors
- Uneven floors, worn floor coverings, slippery surfaces
- Obstructions on floor
- Protruding fixtures / fittings

- Sharp corners / ends on fixtures
- Unstable chairs
- Heavy items stored above waist height
- No ladders or steps for accessing high storage areas
- Overloaded power cords, poor electrical cord condition
- Lack of fire extinguishers

## **Signage**

Signs are a source of warning or information and are not a risk control by themselves. Signage in all areas will be correct, particularly 'prohibition' signs and 'warning' signs.

There are a variety of signs that require specific compliance such as:

- Exit signs – indicating the path to an exit door, located above head height, indicating the exit route from the building. They are illuminated and powered by an emergency power source
- Emergency exits - signs indicate that the door is used as an emergency exit and therefore should never be blocked or locked on the inside. These signs are located on fire escape doors including on external surfaces
- Fire Extinguisher Signs - There are two types of fire extinguisher signs required, one above the device noting its location simply stating, "fire extinguisher" and the second sign specifying the type of extinguisher and the fires that it can be used for. It is located above the fire extinguisher itself to allow for easy reading in an emergency. Access to extinguishers must be clear at all time
- Fire Hose Reel Signs – These are placed on the outside of the Fire Hose Reel cupboard. Access to fire reels must never be blocked
- Portable Wet Floor Signs are yellow in colour and must be used when the floor is slippery from mopping, spills, rain, or any other reason. They should be stored in the same place for easy access
- First Aid Kit signs indicate the location of the first aid kits. They are green and white in colour. They are located above the first aid kit above head height so they can be seen clearly from a distance
